FOR IMMEDIATE RELEASE

DESIGN MANAGER AND EVAN MARSH DESIGNS ANNOUNCE SOFTWARE PARTNERSHIP

Bethlehem and Doylestown, PA, October 1, 2010 - Design Manager, Inc. and Evan Marsh Designs, Inc. today announced their strategic partnership to jointly provide the most comprehensive and affordable design, project management, and accounting software solutions for the interior design industry.

Design Manager has been the leader in project management and accounting software for designers for over 25 years. Since 2003, designers have successfully increased their sales and profitability by using Evan Marsh Designs' revolutionary Dream Draper® visualization software to create beautiful renderings of window treatments, room elevations, and room layouts. Both companies offer installed desktop solutions as well as leading-edge online design and business services, commonly referred to as "cloud computing". Programs are applicable to both PC and Mac computers and are sold throughout the United States and internationally.

The common goal of both companies is to provide innovative design and business software that gives interior design firms a competitive edge in closing sales while saving time and money and enhancing their professional image and profitability.

An early step in their exciting partnership is the release of the new Quick Quote® for Design Manager that enables designers to quickly and easily develop accurate cost estimates for custom window treatments in Design Manager. Initially pioneered by the DreamDraper team, Quick Quote has a proven record and represents a significant enhancement of Design Manager's capabilities for design firms.
